## PROFESSIONAL EXPERIENCE

**Web Developer, [Cobalt Invest](#) - Consultant**

March 2024 - May 2024

As a web developer consultant for Cobalt Invest, a company specializing in trading and trading training, I designed and developed their online training platform. My achievements include:

- Designed and developed the trading training platform.
- Implemented a subscription and renewal system for users.
- Created an intuitive user interface to facilitate access to courses and training resources.
- Set up a tracking dashboard for administrators, enabling efficient management and monitoring of subscriptions and user activities.
- Integrated secure payment solutions for subscriptions.
- Continued maintenance and optimization of the platform to ensure optimal performance and a smooth user experience.

**Technical Environment:** Node.js, Next.js, MySQL, React.js

**Web Developer, [Impact Plus Digital](#) - Consultant**

December 2023 - February 2024

As a web developer at Impact Plus Digital, I contributed to the TrouveChap project by undertaking the following responsibilities:

- Deployed the admin dashboard, providing a user-friendly and functional interface for data management.
- Worked closely with the backend development team to integrate routes, ensuring seamless communication between the frontend and backend of the application.
- Proactively maintained the dashboard, ensuring its stability and optimal performance.

- Agile integration of updates and new features into the dashboard, responding to the changing needs of users and the business.

**Technical Environment:** Node.js, MySQL, Nest.js, React.js, Prisma.

**Application Developer**, [Groupement Orange Services \(GOS\)](#) - stagiaire

October 2023 - *present*

At Groupement Orange Services (GOS), I had the opportunity to contribute to several projects as an intern, notably by:

- Developing low/no-code solutions to enhance development capabilities on specific projects of the CSP OM (Orange Money Shared Service Center).
- Conducting benchmarks to evaluate different solutions.
- Analyzing needs and assisting countries in developing no/low-code solutions.
- Verifying and approving developments carried out by certain countries.
- Formalizing documentation and processes related to developments within the department.
- Collaborating closely with internal and external teams in a complex production environment.

## ÉDUCATION

**AWS Cloud Training, Simplon Côte d'Ivoire**

*July 2023 - October 2023*

**High School Diploma**

July 2020
